Quinclorac 1.5L

Liquid Herbicide

Quinclorac 1.5L liquid herbicide is the latest technology in providing unsurpassed crabgrass control. However Quinclorac 1.5L treats and controls a wide variety of other grasses and broadleaf weeds in residential lawns, commercial establishments, golf courses, military and other institutions, as well as parks, athletic fields and many others. When compared to a dry flowable formulation, the new liquid formulation offers superior results.

- Outstanding mixing capabilities
- Stays in solution in cold water
- Minimal agitation required to keep in solution
- Quicker uptake in plant
- Rainfast in under 1 hour
- Faster and more effective weed control

Grasses and Broadleaf weeds controlled:

Grasses:

- Crabgrass (large & smooth)
- Foxtail (giant, green & yellow)
- Kikuyugrass
- Signalgrass (broadleaf)
- Torpedograss

Broadleaf Weeds:

- Bindweed (field)
- Clover (hop, red & white)
- Daisy (english)
- Dandelion
- Dollarweed
- Geranium (Carolina)
- Morningglory spp.
- Speedwell (common, slender & thymeleaf)

Formulation 18.92% Dimethylamin salt of quinclorac liquid herbicide
