

CENTAUR

ASIA PACIFIC

**SUPERIOR PRODUCTS MAKE
EXCELLENT LANDSCAPES**

CENTAUR ASIA PACIFIC (SINGAPORE) PTE LTD

We fulfill the desire to construct and maintain the highest quality turf and landscaping. Providing superior products and services that are cost effective to clients in several industries e.g. Golf Courses, Sports Fields, Nurseries, Parks and Landscapes throughout Asia and Australia, both in the private as well as the public sector.

Since our establishment in Hong Kong (2006) we opened regional offices in Singapore (2012), Malaysia (2019) and Australia (2020). Centaur Asia Pacific has an experienced world-class management team with direct knowledge of the industry, extensive market research experience, and highly efficient administrative skills.

PROUD TO BE ASSOCIATED WITH HIGH PROFILE INTERNATIONAL BRANDS

Our reputation is built on its representation of premier brands that have the greatest respect in the Golf, Turf and Landscaping Industry. Based on success and an increasingly demanding market, the range of products represented by Centaur Asia Pacific has widened rapidly in recent years. We proudly present a number of brands in several countries in South East Asia.

QUALITY MAKES THE DIFFERENCE

*We have the distribution rights of the below brands for Singapore.
Our distribution rights in other countries in South East Asia might differ.*

RESPECT OUR PLANET: A GREEN FUTURE

We face a long list of environmental challenges around the world, and it is our mission to do better as a business. Whether it is about reducing our impact on the planet's resources, reducing our carbon emissions, or using environmentally friendly products, we want to help with creating a healthier planet:

- *Infinicut*, *ECHO* and others offer all electric models with zero emissions.
- Reduce water usage with *Soil Scout* sensors and ISP HydroForce soil surfactants.
- Promote organic bio-stimulants with *OceanGlas* and *Mirimichi*
- *Prestwick* golf furnishings are made from recycled plastics

BUNKER SOLUTIONS

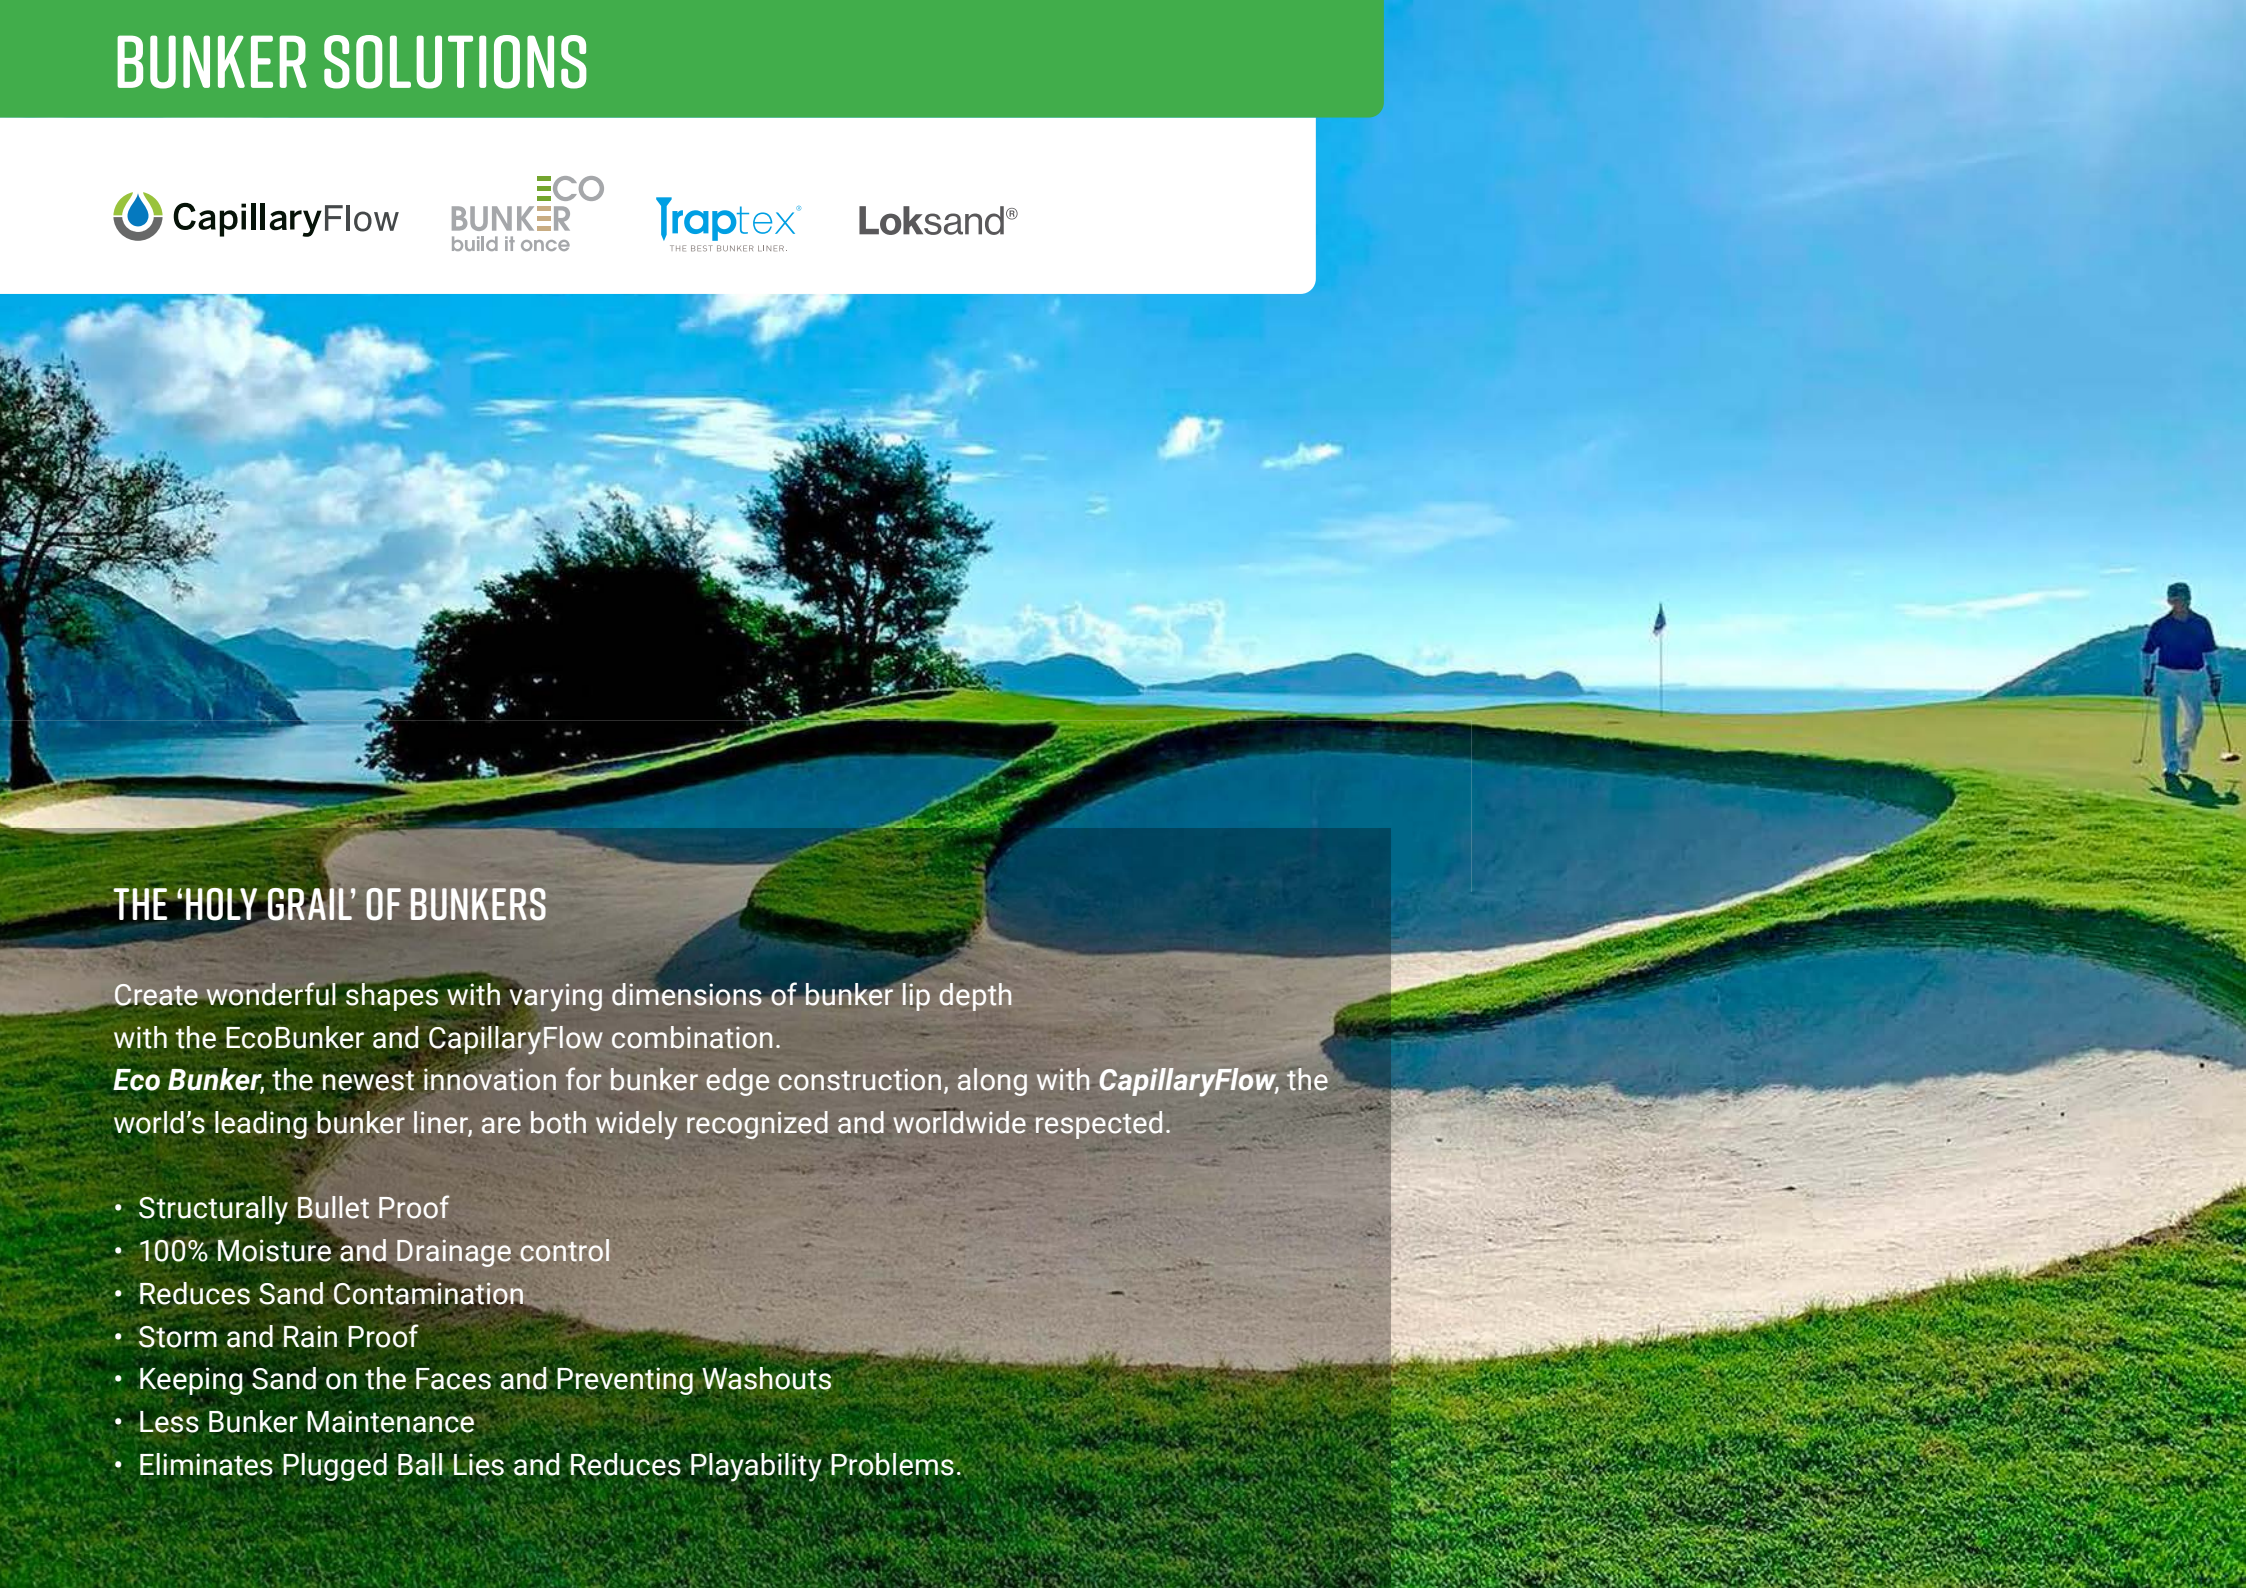

THE 'HOLY GRAIL' OF BUNKERS

Create wonderful shapes with varying dimensions of bunker lip depth with the EcoBunker and CapillaryFlow combination.

Eco Bunker, the newest innovation for bunker edge construction, along with **CapillaryFlow**, the world's leading bunker liner, are both widely recognized and worldwide respected.

- Structurally Bullet Proof
- 100% Moisture and Drainage control
- Reduces Sand Contamination
- Storm and Rain Proof
- Keeping Sand on the Faces and Preventing Washouts
- Less Bunker Maintenance
- Eliminates Plugged Ball Lies and Reduces Playability Problems.

MOWERS AND TURF EQUIPMENT

DryJect®

Drill & Fill Mfg.
SPECIALTY AERIFICATION EQUIPMENT

INFINICUT

TAKE YOUR TURF TO A NEW LEVEL

By supplying the best quality machines, we have become the leader in turf management equipment in Singapore. Our expansive product line of turf mowers and equipment ensures that we always can offer the equipment perfect for your needs.

The INFINICUT® cylinder mowers deliver impressive cut quality and productivity and arguably the most advanced range of electrical pedestrian cylinder mowers available in the market today, **Turfco** continues to lead the way with patented innovations in topdressing, seeding, debris blowing, and renovation. **Campey** has an extensive range of machines for many turf practices.

Our product line continues with many more: **Smithco**, **DryJect**, **Trilo** and others.

ZERO EMISSIONS

INFINICUT

RACE TO ZERO EMISSIONS - REDEFINING ASPIRATIONS

Whether you need a ball picker or a mower that can work silently in the presence of your players on a golf course, or precise mowing for football pitches, or you are looking to maintain another type of sports efficiently, our *Infinicut* and *Echo Robotics* are dedicated to get the job done.

(SUB)SURFACE AERATION AND DRAINAGE

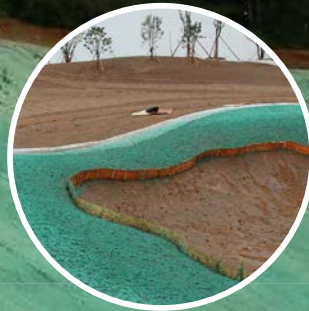

SUPERIOR IN CONTROLLING AIR AND WATER ABOVE AND UNDER THE SURFACE

SubAir™ Systems, as a recognized innovator and expert in both surface and subsurface aeration as well as moisture removal systems, provides superior tools to create an optimal growing environment for healthy grass. **The SubAir™ Elite and Sport** promotes healthier and stronger playing surface by providing fresh air to the plant roots as well as removing any excessive moisture from the soil profile. **Hydrowick™** is the only drainage system that can be installed into a golf green or a sports field with minimum turf disturbance. The narrow 1 meter spacing results in a system that drains quickly using gravity drainage and wicks away excessive moisture with capillary suction. **TurfBreeze™** Fans generate all-important air movement above the surface and helps in cooling down the canopy of your turf.

EROSION AND VEGETATIVE SOLUTIONS

HYDROMULCHING & PREMIUM GRASS SEED

Centaur Asia Pacific can help you prevent erosion and establish vegetation with **Profile Products LLC** hydraulically applied erosion control products and **Barenbrug** premium seed. **Profile Products LLC** provides the industry's broadest line of erosion and sediment control products, turf establishment products and complementary accessories to control erosion and accelerate seed germination. **Barenbrug** is a leading seed business specialising in research and development, marketing, extension and distribution of proprietary pasture and forage seeds, cropping, turf and seed enhancement technology. Together they provide the erosion and vegetative solution for a wide range of industries, including sports fields, golf courses, landfills, airports, commercial/residential construction, highway projects and many more.
