Colour AidTM

Turf Colour Enhancer

A concentrated turf pigment designed to improve the visual appearance of turfgrass by enhancing colour and masking discolouration caused by environmental stress, dormancy or wear.

For Professional Turf Management Use.

KEY BENEFITS

- *Instant natural green colour*
- *Enhances presentation of dormant or stressed turf*
- *Improves surface uniformity*
- *Assists in masking minor turf discolouration*
- *Excellent spray tank compatibility*
- *Suitable for warm and cool season turf species*
- *Long-lasting colour under normal growing conditions*
- *Compatible with most turf spray programs*

SPECIALTY PRODUCTS

DIRECTIONS FOR USE

Situation	Rate	Water Volume
Routine colour enhancement	1.2 – 2 L/ha	400–800 L/ha
Moderate turf discolouration	1.5 – 2 L/ha	400–800 L/ha
Dormant turf or maximum colour	2 – 2.5 L/ha	400–800 L/ha

- Higher water volumes improve coverage and colour uniformity.
- Apply evenly using calibrated boom or turf sprayers fitted with flat-fan nozzles.
- Avoid overlapping spray patterns.

PRODUCT DESCRIPTION

COLOUR AID™ is a concentrated turf colourant formulated to enhance turf appearance by providing an immediate, natural-looking green colour. It assists in maintaining an attractive playing surface during periods of seasonal dormancy, drought stress, renovation, nutrient deficiency or recovery from wear.

APPLICATION

Shake container thoroughly before use.

- > Fill spray tank to half capacity with clean water.
- > Begin agitation.
- > Add the required amount of COLOUR AID™.
- > Complete filling with water while maintaining agitation.
- > Apply immediately after mixing.
- > Continuous agitation is recommended.

RE-APPLICATION

Colour longevity depends on:

- mowing frequency
- turf growth rate
- rainfall
- irrigation
- wear
- UV exposure

Reapply as required to maintain desired appearance. Typical colour persistence ranges from 3 – 6 weeks depending on environmental conditions.

COMPATIBILITY

COLOUR AID™ is generally compatible with many:

- liquid fertilisers
- plant growth regulators
- fungicides
- insecticides
- herbicides

Always perform a jar test before tank mixing.

PRECAUTIONS

Avoid spray drift onto: concrete, pavers, buildings, fences, paths, vehicles, clothing.

Pigment may temporarily stain porous surfaces. Do not apply when heavy rainfall is expected before drying. Avoid application during strong wind conditions.

CLEAN-UP

Immediately rinse spray equipment after use. Flush with clean water until all pigment residue have been removed. Avoid allowing product to dry inside spray equipment.

STORAGE

Store in the closed original container in a cool, dry, well-ventilated area. Protect from freezing and excessive heat.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Wear suitable gloves and eye protection during mixing and application. Wash hands thoroughly after use.

FIRST AID

If in eyes, rinse cautiously with water for several minutes. If on skin, wash with soap and water. If irritation persists, seek medical advice. Refer to the Safety Data Sheet for further information.
