ASIA PACIFIC

**SUPERIOR PRODUCTS MAKE
EXCELLENT LANDSCAPES**

CENTAUR ASIA PACIFIC (MALAYSIA) SDN BHD

We fulfill the desire to construct and maintain the highest quality turf and landscaping. Providing superior products and services that are cost effective to clients in several industries e.g. Golf Courses, Sports Fields, Nurseries, Parks and Landscapes throughout Asia and Australia, both in the private as well as the public sector.

Since our establishment in Hong Kong (2006) we opened regional offices in Singapore (2012), Malaysia (2019) and Australia (2020). Centaur Asia Pacific has an experienced world-class management team with direct knowledge of the industry, extensive market research experience, and highly efficient administrative skills.

PROUD TO BE ASSOCIATED WITH HIGH PROFILE INTERNATIONAL BRANDS

Our reputation is built on its representation of premier brands that have the greatest respect in the Golf, Turf and Landscaping Industry. Based on success and an increasingly demanding market, the range of products represented by Centaur Asia Pacific has widened rapidly in recent years. We proudly present a number of brands in several countries in South East Asia.

QUALITY MAKES THE DIFFERENCE

We have the distribution rights of the below brands for Malaysia. Our distribution rights in other countries in South East Asia might differ.

RESPECT OUR PLANET: A GREEN FUTURE

We face a long list of environmental challenges around the world, and it is our mission to do better as a business. Whether it is about reducing our impact on the planet's resources, reducing our carbon emissions, or using environmentally friendly products, we want to help with creating a healthier planet:

- *Infinicut*, *ECHO* and others offer all electric models with zero emissions.
- Reduce water usage with **Soil Scout** sensors and **ISP HydroForce** soil surfactants.
- Promote organic bio-stimulants with *OceanGlas*.
- *Prestwick* golf furnishings are made from recycled plastics

BUNKER SOLUTIONS

THE 'HOLY GRAIL' OF BUNKERS

Create wonderful shapes with varying dimensions of bunker lip depth with the EcoBunker, CapillaryFlow and LOKSAND combination.

EcoBunker provides a strong and durable bunker edge, CapillaryFlow manages drainage and moisture within the bunker, while LOKSAND reinforces and stabilises the surrounding sand and soil to help create stronger bunker edges and slopes with improved resistance to erosion. Together, they provide a comprehensive solution for bunker construction and renovation.

- Structurally strong bunker construction
- Moisture and drainage control
- Reduces sand contamination
- Improved bunker edge and slope stability
- Greater resistance to erosion and washouts
- Helps keep sand on bunker faces
- Reduced bunker maintenance
- Reduces plugged ball lies and improves playability

IRRIGATION & SMART WATER MANAGEMENT

DRIVING SMARTER WATER MANAGEMENT

Rain Bird provides industry leading irrigation systems, including sprinklers, controllers, valves and central control solutions, to deliver efficient and reliable water management for golf courses, sports fields and landscaped environments. **Soil Scout** complements irrigation management with fully wireless underground sensors that continuously monitor soil moisture, temperature, salinity and oxygen, enabling informed decisions to improve turf health and optimise water use. **Spectrum Technologies** completes the solution with precision instruments for measuring soil, weather and plant conditions, helping turf professionals improve irrigation efficiency, enhance turf performance and support sustainable landscape management.

MOWERS AND TURF EQUIPMENT

INFINICUT

TURF CARE SYSTEMS
QUALITY GROUNDSCAPE EQUIPMENT

TAKE YOUR TURF TO A NEW LEVEL

Our expansive product line of turf mowers and equipment ensures that we always can offer the equipment perfect for your needs. **The INFINICUT®** cylinder mowers deliver impressive cut quality and productivity and arguably the most advanced range of electrical pedestrian cylinder mowers available in the market today. **Turfco** continues to lead the way with patented innovations in topdressing, seeding, debris blowing, and renovation. **Campey** has an extensive range of machines for many turf practices. Our product line continues with many more: **DryJect**, **TMSystem** and others.

AUTONOMOUS TURF MAINTENANCE

ECHO Robotics offers autonomous robotic mowers and ball pickers that deliver consistent, high quality turf maintenance with minimal human intervention. Designed for golf courses, sports fields and driving ranges, these intelligent machines improve operational efficiency, reduce labour requirements and maintain excellent playing conditions through reliable, precision performance.

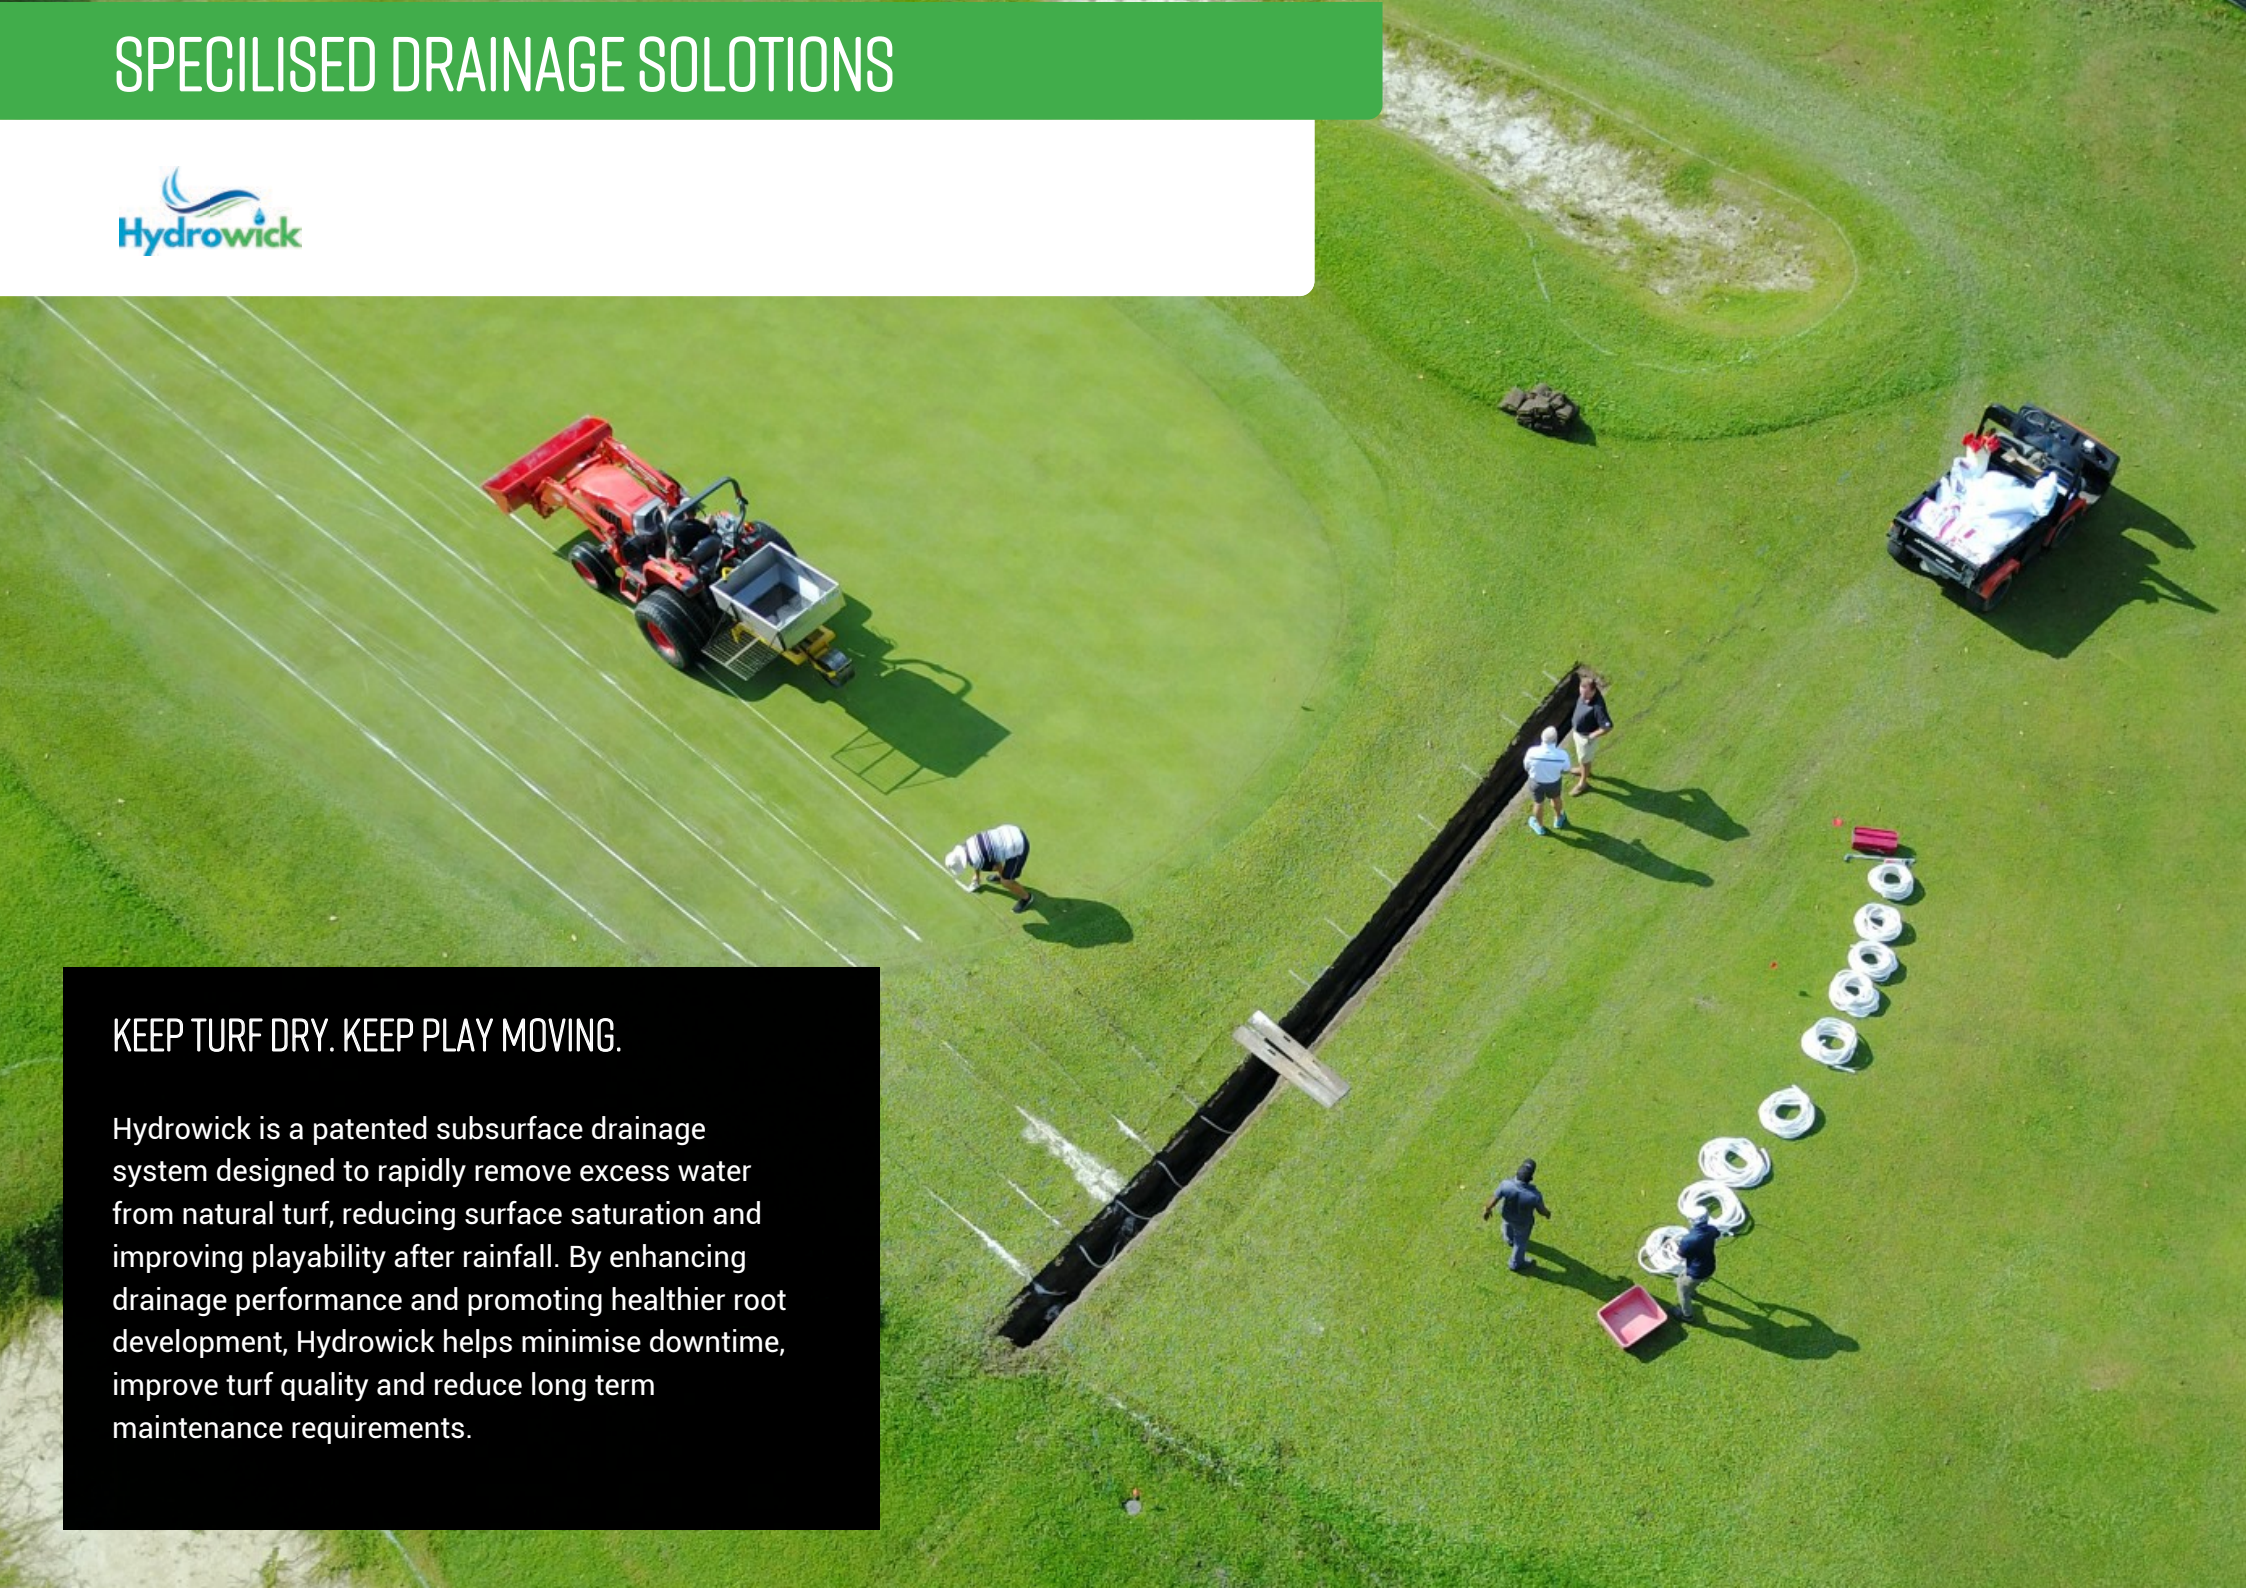

SPECIALISED DRAINAGE SOLUTIONS

KEEP TURF DRY. KEEP PLAY MOVING.

Hydrowick is a patented subsurface drainage system designed to rapidly remove excess water from natural turf, reducing surface saturation and improving playability after rainfall. By enhancing drainage performance and promoting healthier root development, Hydrowick helps minimise downtime, improve turf quality and reduce long term maintenance requirements.

[SUB]SURFACE AERATION AND DRAINAGE

SUPERIOR IN CONTROLLING AIR AND WATER ABOVE AND UNDER THE SURFACE

SubAir™ Systems, as a recognized innovator and expert in both surface and subsurface aeration as well as moisture removal systems, provides superior tools to create an optimal growing environment for healthy grass. **The SubAir™ Elite and Sport** promotes healthier and stronger playing surface by providing fresh air to the plant roots as well as removing any excessive moisture from the soil profile. **TurfBreeze™** Fans generate all-important air movement above the surface and helps in cooling down the canopy of your turf.
