

CAMPEY™

Speedresser™ 24H

The Campey™ SPEEDRESSER™ 24H is a 2.4m wide drop-spreader designed to handle all topdressing material. The four flotation tyres on a pivoting axle minimise the risk of turf damage and compaction. The high work rate enables the spreading of dressings up to depths of 2mm - 75mm in one pass, making it ideal for golf courses and sports fields use, both with private clubs, local authorities and contractors. The SPEEDRESSER™ 24H requires a tractor of at least 75hp and is PTO driven via a heavy-duty transmission to an agitator and twin rollers. The twin rollers are now hydraulically adjustable against a pre-set stop to alter spreading rate applications.
